

FRENCH

A journey through the curriculum

YEAR 3

Children will begin to follow the National Curriculum expectations for MFL. They will learn basic greetings and how to take part in a basic conversation. They will begin experimenting with writing and children will learn numbers to 20, naming colours and how to name everyday objects also.

3

4

YEAR 4

In Year 4, children will build upon their knowledge from Year 3. They will learn numbers 20 to 40, and the French alphabet before applying this to spell their names and everyday items. Children will learn how to tell the time and describe what the weather is like. They will also learn prepositions and find out which countries around the world are French speaking.

YEAR 5

As children enter Upper KS2, they will be introduced to adjectives and adjectival agreements. They will also learn how to change from singular to plural. Children will learn how to describe their appearance, how to name different body parts and begin exploring addition and subtraction problems using numbers to 60.

5

YEAR 6

In preparation for Secondary School, children at Paddox will be able to initiate and sustain a short conversation by the time they leave Year 6. They will learn numbers to 100 and how to describe their friends and family. Furthermore, they will learn how to talk in the near future tense, sharing opinions and giving descriptions about their Secondary School.
